On behalf of my Government, I strongly protest the aforementioned continued violations by Turkey and call for their immediate cessation. These violations contravene international law and air traffic regulations and continue to pose a serious threat to the safety of international civil aviation in the region.

Such systematic attempts by Turkey to undermine the sovereignty and territorial integrity of the Republic of Cyprus put at risk the peace and stability in the entire region. Furthermore, they undermine the efforts to build trust and confidence between the two communities, thus sabotaging the current negotiating process to find a just, lasting and peaceful solution to the Cyprus problem. Such actions are entirely out of place with the expected behaviour of a country currently serving as a non-permanent member of the Security Council.

As stated in previous such letters, the continued violations of the international air traffic regulations and the national airspace of the Republic of Cyprus by Turkey should be included in the report of the Secretary-General on the United Nations operation in Cyprus.

I should be grateful, if you would have the present letter circulated as a document of the General Assembly, under agenda item 43, and of the Security Council.
